

FO Patch Panel Fixed OVB 19" 1U

FO patch panel for fixed installation for up to 48 fibers.
For SC / LC and E2000® couplings the front panel is also supplied with screw holes in order to affix couplings. Cable entry is effected via a maximum of two cable glands or a fixture for break-out cable (each sold separately as special accessory).
A breakout point is located on both sides on the back and serves as a holder for the FODH / FOCT distributor system.
